SUMMARY

Experienced React Developer with over 4+ years in the industry. I've been working as a React JS Developer for almost 3 years with hands on experience in identifying web-based user interactions along with implementing highly responsive UI components by deploying React concepts and also monitoring and maintaining front-end performance and debugging the same to booster overall performance.

EXPERIENCE

Software Engineer

Clover InfoTech

November 2024 - Present, Mumbai

- Integrated Google Authentication API to enhance application security and enable secure, seamless user login experience.
- Used SCSS and Tailwind CSS For UI design

React Js Developer

Harbinger Group

February 2023 - June 2024, Pune

- Implemented secure authentication and authorization mechanisms using JWT.
- Worked on API integration, code reusability, optimization part , participated in code reviews, and contributed to secure authorization and authentication implementations.
- Designed and developed reusable, high-performance UI components, contributing to a more maintainable and scalable codebase and participated in code review activity.
- Implemented React-Virtualized,React-Select and Lazy Loading Part to improve performance boosting page rendering speed by 60% and enhancing user experience across multiple devices.
- and implemented tailwind css to streamline the design process, reducing development time by 30% and ensuring consistent styling across the application's responsive components.

Software Engineer

Clover Infotech

May 2022 - January 2023, Mumbai

- Implemented a component-based architecture using React hooks and custom hooks, improving code reusability and wrote test cases.
- Conducted thorough root cause analysis for complex issues developing and implementing effective solutions to enhance system stability.
- Optimized application performance by refactoring code, reducing re-renders, improving load times and worked on Typescript and Sass.
- Oversaw the integration of RESTful APIs, enhancing data flow efficiency between the client-side and server-side, which increased data processing speed by 35% and directly contributed to improved user experience metrics.

Junior Software Engineer

LearningMate Solution Pvt. Ltd

November 2019 - April 2022, Mumbai

- Fixed bugs, debug errors and works on Enhancement part - Managed application state using tools like Context Api and Worked in an Agile environment.
- Understood new implementations in project and Collaborated using Git for version control, managing branches, resolving merge conflicts.
- Implemented new features and conducted thorough code reviews, utilizing React and Redux, which improved application functionality, and contributed to a 15% increase in user engagement over six months.

PROJECTS

Mi clone

laughing-engelbart-0863ba.netlify.app/

- Mi clone is mobile app where user can search for Mi mobile.
- Developed a mobile app clone of Mi's product catalog using React.
- Implemented advanced search functionality, enabling users to efficiently find Mi products.

Food Recipe Finder App

frosty-jang-62320f.netlify.app/

- Created a web application for searching and displaying food recipes using React.
- User can search any keyword then he will get more recipes e.g. user search Pineapple ,then user will get pineapple related recipes.

EDUCATION

Bachelor Of Engineering

University Of Mumbai • 2025

Post Graduation Diploma In Advanced Computing(CDAC)

Vidyanidhi Infotech • Mumbai • 2019

SKILLS

Technical Skills: HTML,CSS,JavaScript,TypeScript,SCSS,TailwindCSS,Redux Tool Kit,JEST,React Js, Bootstrap,Basic Linux Command As Well As Mongo DB Commands.Micro-FrontEnd
